

## PRESS RELEASE

KBB Hall 7, Stand A52

### New launches from Unique Automation

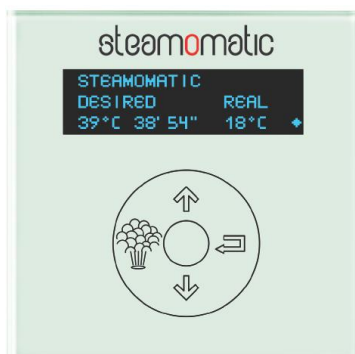

Unique Automation is delighted to announce the introduction of two exciting new products for KBB to enhance its offering for luxury bathrooms. batho**vision**<sup>TM</sup>, and steamo**matic**<sup>TM</sup> are designed to complement the company's flagship product, batho**matic**<sup>TM</sup>.

Homeowners need never miss their favourite television programme in lieu of bathing again. With batho**vision**<sup>TM</sup>, they can do both simultaneously!

Designed to satisfy the most demanding of customers, batho**vision**<sup>TM</sup> is a waterproof, flat widescreen TV with remote control for the ultimate in pampering. Heated, mirrored glass combats condensation, making it perfect for high humidity areas such as bathrooms, wet rooms, kitchens or even poolsides.

In the bathroom, batho**vision**<sup>TM</sup> can be integrated with unique Automation's batho**matic**<sup>TM</sup> digital bath filler, controlled via an on-screen menu. The bath filling process is microprocessor-controlled and temperature and water level can be pre-set. batho**vision**<sup>TM</sup> screen sizes range from 23" – 56". Price from £1,555 (+VAT).

With its therapeutic benefits, steam is often in demand in bathrooms and home spas. steamo**matic**<sup>TM</sup> offers a luxurious addition to individual bathrooms or customised shower cubicles. A compact 3kW steam generator is combined with a minimal, user-friendly glass touch-control panel.

The steam generator measures just 210 x 275 x 106 mm and can easily be installed under a seat. steamomatic™ can be integrated into a multi-unit system for larger areas, or stand-alone for a single application. Features include: fully automatic de-scaling to flush the system clean after each use, full thermal insulation, ease of servicing, and quick and simple installation. Price from around £1,200 (+ VAT).
